

# **A Critical Look at the Agendas of some**

## **of our 'Galactic Friends'**

**Mohsen Paul Sarfarazi, Ph.D.**

**June 5<sup>th</sup>, 2012**

- We have had the influx of channelings coming from the 'higher' sources for at least the past decade, certainly formalizing their efforts in order to 'educate' us since 2005.
- Prior to that we have had the concerted efforts of the Nibiruan Council to do the same since almost 1996.
- The influence of the Galactics has been present since the advent of the internet and even before that stretching back to 1987, when Harmonic Convergence first initiated.
- To trace this influence of Galactics on our culture we can go back to the period ending the WW II in 1940's.
- By their own admissions, the Andromedans, Pleiadians, Sirians and some of the other Star Nations first initiated the 'Starseed Program' in which their souls would incarnate on Earth 'in order to raise the vibration frequency of Earth and her Earthlings' in 1960s. The first mass incarnations started around late 1970s, being accentuated in 1987 and most definitely early 1990s. The wave of incarnations continued to early 2000. The last of the incarnates are now reaching teen status.
- Apparently, the program has not worked out very well for them. First of all there are countless starseeds who are still apparently in slumber. Secondly, there are recent reports now, in the way of new channelings that there is seemingly severe night time partying by the starseeds who stay out at nights using tremendous amount of drugs and hallucinogens and possible engage in sexual orgies, etc.

- This is quite predictable because first of all Earth is known to be the planet of high diversities, offering self-indulging carnal and physical pleasures like no other in the Universe. Since these incarnates come from planets that such debauchery, decadence, immorality, and wastefulness does not exist, they are prone to be attracted to such 'sins of flesh' and depravities here.
- Secondly, the tactic, obviously being master-minded by the Illuminati, as to corrupt youngsters and adults in their incipient 'worldly' experiences is far from new. This was once tried by the Galactics after the WW II which led to the 'age of Aquarius' and 'the dawn of a new day' which culminated with the age of hippies that started the era of promiscuity and mass drug usage. It has always existed to this day and it is what is responsible for breakage of family structure, dawn of apathy, selfishness and self-indulgence. So in this respect, the drug usage of the starseeds and their 'night time partying' is far from being a bombshell. It is quite clear that Illuminati are the clear winners of this round of battle as they very well know the game of flesh, deceit, and mesmerism in this respect.
- The Galactics content that they are our space brothers and sisters and are here to help with our ascension.
- Throughout their channelings they have continuously promised one thing or another to us. Instead of showing us quite frankly that they are what they say they are by providing a modicum of proof for their assertions, they keep postponing the dates at which such 'revelations' to happen without the ability to remotely convince the public of their 'good intentions.'
- Let us review such consistent claims of 'good intentions' that have been persisting for at least the past decade:
- **1. The arrest and removal of the Dark Cabal.** No doubt that the Dark Cabal present an obstacle to them as well as they have been our masters and prisoners. There is no indication as to the claims they make regarding the indictment of the Cabal. They seem to roam freely around enjoying their privileges as before, if not more. They say that now we need to arrest the cabal ourselves and they cannot interfere. They want us to put away the cabal so they can land their ships!

- **2. The prosperity funds.** Nothing has materialized to this effect. They seem to use the good name of Saint Germain in this process, proclaiming him as the head of financial affairs regarding Earth's ascension. There has never been a proof in such cooperative effort and no one has seen a dime regarding the disbursement of the prosperity fund. They keep saying dispersion of prosperity funds is contingent on landing first!
- **3. The offerings of giving new technologies** to us such as teleportation, free energy, new communication devices, etc. They keep saying they must first land before they can do this.
- **4. The claim that they help us with earthquakes, tsunamis, hurricanes,** etc. There has absolutely been no proof for their participation in assisting to remedy such problems for us at all. In fact, their only involvement could be traced as to seeing some of their crafts in the vicinity of such events, which is typical of sightings throughout the history. No one has ever seen their contribution in effecting any relief in the extent of earthquakes, etc.
- 5. The Sirians contend that 'Earth was promised to them.' They contend that they are us and we are them and we are related and such nonsense!
- 6. The Pleadians claim that they are our 'Guardians' and 'teachers' as decided by the Galactic Federation of Light, and we are to be put in their care! There is no proof that the Galactic Federation of Light is an organization ordained by the Prime Creator and one that is recognized formally by the Divine Realm in any formal divinity sense. They all proclaim that they are superior to us and they are from 5<sup>th</sup> dimension and above with some declaring that they are from 11<sup>th</sup> dimension; but has there been a proof this regard?
- There is bound to be ascended entities and ascended masters from any sentient race, and species. In this regard, it is not surprising that we are to find that there are ascended masters and ascended individuals from Pleiades, Sirius, Arcturus, Andromeda, etc.
- There is no historical account of mass ascension of Pleadians or Sirians, etc., after the 1<sup>st</sup> or 2<sup>nd</sup> Grand Experiment.
- The fact that the Sirian A were blown up by the Draconians after the Grand Experiments does not entitle them to the Planet Earth. Has Archangel

Metatron or anyone else said that the Sirians are to inherit Earth. What about the rest of us being reincarnating and enslaving under duality all these eons of time?

- Throughout hundreds and hundreds of channelings received from the Galactic Federation of Light, Pleiadians, Sirians (Sheldon Nidle), Arcturians, Andromedans, etc., all that is emphasized is the subject of disclosure and **mass landing**. This seems to be the number 1 concern of these Galactics. Everything else is contingent upon their successful landing on the planet first.
- We have even promised to take us on board of their ships over and over and that has not happened yet. They have talked about one to one and personal contact with us and that has not happened either.
- The truth of the matter is that the author is of strong belief that should they land due to our consent the divine and Angelics will not interfere unless it leads to destruction of the planet Earth, which will be totally avoidable by the Galactics as it is probably the Earth that they seek to inherit and not 7 billion of us.
- If we agree that they land and we invite them to do so it will be the same scenario as to when the Aryan Atlanteans invited Anunnaki to come to Earth and help them with their genetic experiments. The Anunnaki were most likely the culprit to bring the ideas of royalty monarchism and racial and class supremacy to Atlantis, corrupting them and deterring them from their spiritual focus and way of life. They were also the ones tempting the Aryans to seek genetically creating a lower, more docile race of mankind who would pay homage to them as masters and superiors. This finally lead to Anunnaki depriving us from our full use of 12 strand DNA heritage and design and start putting us in bondage which has lasted 13,000 years or so.
- In what follows Archangel Metatron, Lord of Light sheds some light into the nature of the visits of these Galactics:
- **Abstract: Archangel Metatron warns us to be aware of those Galactic friends who are here and pretend to want to help us ascend. He indicates:**

- (1) These people are at our level of consciousness or frequency rate which is 4<sup>th</sup> dimension and not higher.
  - (2) They have a selfish agenda to take over Earth as they feel it is their own. The reference must be to Pleadians and Sirians, possibly Andromedans and Arcturians.
  - (3) He advises us to go within and seek the advice of the HIGHERSELF and continue with our own evolutionary path without their help.
  - (4) He indicates that we are beings of the highest consciousness potentials physically and etherically in the Universe and we do not need them!
- Below is the channel as it has appeared:

### [Archangel Metatron The Ascension of the Angels 9/8/11](#)

*9 September 2011 - 12:07am* Channeler: [El Anora](#)

- I am Archangel Metatron, and there are many of you who will not believe that this is so. It is right that you should regard each communication with discretion, for discretion is paramount in any communication with a being outside your scope of awareness which you have created boundaries around to limit the potential of your own enlightenment.
- It is my asking that you disregard her in this communication, and regard only the **Archangel Metatron is speaking to you**, and it is but through this channel that I am speaking, and through this process that I am communicating.
- And I understand that many of you doubt the emergence of an angel who sits beneath the Throne of the Divine, who in his highest and most ineffable state, is the pure energy of the Throne of Kether, the Aleph that is breath, the eternal One, undivided unity of the Crown, but these are teachings that you have been taught and they have been taught in error.
- For there is no angel greater than another, and no person greater than another, there is only that mission which each angelic presence is in charge of and takes hold, and so it is my mission alongside all of the other angels of light, to push you onward and to promote and develop, the purpose and mission, of

your Higher Self, and it is with that knowledge of your Higher Self, that pure life mission from which you incarnated in this world to achieve that I come to you now.

- **There are no dates, plans, or expectations**, only that you have achieved a **realm of consciousness** in which the Angelic beings of Light are able to descend upon you now and be present in your current reality, and you have known, and expressed, this desire, and an understanding that this moment would come to pass for you from times that have gone before.
- And **I come now** with only an acknowledgment, an awareness of a path that is outside your scope of understanding, and **to display to you know the Truth of your own understandings**.
- For **there are many alien species that exist around your planet now who have not your best interest at heart**, **they would claim this earth as their own, believing that you are subordinate to them**, they call themselves **The Creators**, and **by calling themselves this, and by claiming this power, they have believed that you should be indentured servants to them for all times**, but if you have an understanding of history, and if you have an examination of the Angelic Realm, you would come, and know, that **having been created on earth in a higher plane of a dimension that you were previous inhabitants of, and so be brethren unto you**, and **so being part of your reality, we have as much vestment in this world as you do**, only that we see it from a point, and a perspective that you do not.
- For in our understanding **we see quite clearly these agendas pushed toward you**, and **these agendas** try to create, and **re-create a reality** in which **you are bound to those beings whom you bring forth**, and **you serve them** by the **claim that they give you and help you to receive extraordinary power, this is not so**. **This power being given is given only in exchange for your allowance of them to make holes in the protections** that you yourselves creation, and **through allowing them to enter, you bring them in to excavate and amass their empire upon your world, through their own domination and control**.
- **Take responsibility, and sincere caution, in understanding who you are, and why this would be detrimental to your being**. For if another comes in and

saves you from who you are, and **changes your reality for you then you have no capability of claiming the power for yourself, and developing that power within yourself.** Angelic beings have never forced anything upon you, and they have never given you power, and so in that regard, **many have turned to the demonic forces for their power,** for the Angels will never, can never, interfere in that which is your reality and choice.

- And so we caution on those who would seek to interfere in your reality, and we caution you to examine your own beliefs in regard to your own power, for you, **inside you, contain all that you wish to be and more,** and, **all the power and more of those whom you serve,** for I tell you this, there is no being in the cosmos that is greater than you, higher than you, or more evolved than you, it is only your own ideas about evolution, and authority, that have guided you to view them as such.
- In reality, they are as much "evolving" as you are, and in some ways, and in some manners, **they lack the experience from which you have gained insight, and through their own lack, they have turned to you,** my dear souls, for their own education. My suggestion to you is this: **They do not need you for their education, and all your sacrifices do not have to be in servitude to their agenda.**
- This is not to say there are not those whom do care for you, and that is not to say that there are not alien beings who are concerned about your welfare, but any Truly loving society or any Truly loving being, is not going to interfere in your reality, if, in a galactic sense, you came to a point in your growth when, the two of you were able to commune in an equality of state of being, then, and only then, would such a society participate on equal grounds through a shared experience.
- But examine your own romantic relationships; has any relationship, in which you have entered it with need of something from the other, been successful? Eventually you come to rely on that other for all your sustenance, even in some cases, **viewing that human as a God/Goddess, and so you lose complete sight of your ability to claim and understand your own power.** And only through the "loss" of such a person do you come to **go within and truly**

**gain insight into your own Truth and being.**

- And so it is with what you call Higher, a being within which exists a separate state of vibratory rate will not enter into a relationship with a group of beings that does not contain nor equate with that vibratory rate, for to do so would mean the destruction of both, and so, any being which does seek to enter into such a relationship with you, would therefore be a being in which it is equal or like you in vibratory nature. For **the aliens that walk amongst you, are not those whom are "evolved" but are beings who have a capacity equal or equivalent to your own.**
- Now, through the ages and throughout the span of your growth, all the world of light, through the presence of the Angelic Realms that exist on your planet, have watched over, guarded, and guided you, in the sense of allowing you the freedom to develop in a way that would not hinder your growth, for in the times before this was enacted, **you were in slavery to those who existed on your planet**, and have now returned, for in understanding that **it was you who let them in, and it was you who closed the portal. thereby causing your own loss of awareness**, you come to the knowledge of understanding what you could possibly be about to re-create.
- For once you have achieved a state of awareness that is loving and enlightened, you will not let in beings that are anything but that which is the same nature as the state of growth in which you are now living, but **believing you are less, you have mis-understood certain energies and alien systems, as being superior to your own.**
- I advise you, in question my statements on this regard, to **look but into the word superior**, for if you believe, at any level, that another group of beings is higher or more powerful, or more capable than you, than Truly you have named them superior.
- We the **Archangels and Angels** are not superior to you, but **Divine co-creators with you**, existing in a vibration just outside your own frequency, on an earth not ravaged by the **4d dimensional war**, and we, being in that state, and you being our brothers and sisters, **have always guided you towards awakening to this frequency**, when you have requested.

- But just as the cells within your own body often multiply beyond your control, so have you, the cells of our body, taken a path we would prefer you not take, but **you are part of our body**, and to deny you such an experience, would be to deny our very own existence, and to try to remove you, would be to remove ourselves as well, for we share the same experience.
- Understand that some chose to stay in the Angelic Realms, and **others came to incarnate upon your planet**, in what you call incarnation, but **it was simply a move to 3 dimensional consciousness, away from 5 dimensional understanding, and that in time, once the earth has truly healed, we will all join as One in the Angelic Presence** that has always been ours, and I can assure you, that you will need no outside source to do this, and, that **in time, should you come to understand your own 5d awareness, you will be able to commune with those who are at that stage of growth**.
- For now, I ask you to think deeply on these things, there are no agendas, your agenda is my agenda, I only wish for what you wish for, and to guide you back to a state of being where you have choice, and the ability to decide for yourselves, to acknowledge, and recommend, that you see yourselves as the angels see you. Angels Walking Unaware.
- I AM ARCHANGEL METATRON. **I am the Presence of the 10th Sphere, the Voice of the Tenth sphere, The Manifestation of Light consciousness, in the realms beyond the veil of illusion**, and I am with you.
- Great Lightworkers, **you are not alone**. Archangel Indriel comes to you now, to aid you should you seek **her**, and if you request, to guide you along this path, for this age in which the Rainbow Children have emerged, **is not one you can understand with your mind, but through your hearts**, know that she comes to you now, again, at this time, and wishes to be known and addressed.
- I love you all dearly, my lights, my souls, my friends, may you be guided to the choice of your heart, now and all ways.
- **Archangel Metatron**
