## **Mankind: What to Expect**

**Mohsen Paul Sarfarazi, Ph.D.**

**March 3, 2012**

- We have all realized that the number of 'natural' disasters such as earthquakes, tsunamis, hurricanes, tornadoes, flood, volcanic eruptions, etc. have increased tremendously during the past decade.
- Of course, all of these events are not occurring 'naturally' and the Illuminati are very much responsible for starting 'new' cataclysms, or for agitating and causing upheaval of those events already in progress.
- This is easily achieved through the application of HAARP weapon which is not only capable of targeting precisely intended areas to extinguish electronic communications, it is also capable of creating strong tremors, volcanic outbursts, tsunamis as well as disturbing weather patterns as to induce floods, draughts, hurricanes, etc.
- As the mankind is progressively awakening, and comprehends Dark rule of tyranny and bondage, by seeking freedom (Egypt, Libya, Tunisia, Syria and other countries in Africa and Middle East), financial reform (U.S., England, and rest of the Western Block), and end to war-mongering (Iraq, Afghanistan, Iran, to name a few) will inevitably heighten Dark's wrath as to employ their diabolic toy(s) more candidly, culminating in more catastrophes around the globe.
- Gaia, the spirit of Mother Earth, has also initiated her cleansing in anticipation of her ascension and her restoration to the status of 'Eden' she once was, prior to the Illuminati's continuous pillage and devastation of her.
- This cleansing entails movement and rearranging of enormous tectonic plates in the Earth crust together with reversal in electromagnetic polarization of the

Earth's shell which in turn will lead to depolarization of the Earth planet as a whole.

- Under such circumstances survival will become highly difficult, particularly for those who happen to inhabit the 'unfortunate' localities of Earth.
- The obliteration of these specific people specially pertains to those souls who refuse to 'awaken' in this extremely unique time in the history of Earth and, indeed, of the entire universe. These are the souls that in their 'Life Contract' had planned to depart Earth at this time.
- The natural disasters activities will continue and, even, increase rather exponentially during the near future.
- There will be continued earthquakes, volcanic eruptions, tsunamis, and severe weather.
- How these events will impact on each human is determined by a number of factors:
  - Earth's desire to cleanse herself in a particular area;
  - The fears held by the human residents of that area;
  - The Dark's use of HAARP, and other methods, to increase the severity of these events.
- It is expected that beyond the target date of December 21, 2012, as decreed by the divinity, the condition on the Earth surface becomes as for Earth to ascend to the 5<sup>th</sup> Dimension.
- The result of time travel carried out on Earth as it traversed the 4<sup>th</sup> dimension of existence indicates the 3<sup>rd</sup> dimension Earth is no longer present beyond this date.
- The period in the Earth's history up to this point has already been classified under Earth's 'Old Paradigm.'
- Conversely, the 'New' Earth is said to undergo the incipient point of 'Golden Age' beyond this date. It enters the paradigm of 3<sup>rd</sup> Earth going to 5<sup>th</sup>.
- At the same the parallel 5<sup>th</sup> dimension Earth forms accommodating all those who are ready to ascend.
- The question is how will all this happen, and what do we expect to experience during this transitional time.

- Our Andromedan brothers and sisters, who already live in the 5<sup>th</sup> dimensions and above, where no distinction can be made among past, present, and future, can 'see' the events with clarity. They indicate:
- There will come a time in the near future when our entire world will be in a state of distress.
- There will not be any electricity for an extended amount of time.
- There will be shortage of food, water, and other necessities.
- This period of distress will last for several months, until the necessities can be restored.
- There will be no other countries or organizations to come to the assistance of those requesting help.
- They advise us to wisely, plan for such a time. Store some food and water.
- Secure shelter first for yourselves, then for your family, friends, and neighbors until electricity can once again be restored to light your homes.
- They also say:
- 'Despite our best efforts, we will not be able to assist every individual in a timely manner.'
- 'We cannot impose ourselves on those who do not wish our assistance' due to their allegiance to the universal law of non-interference and as a matter of their respect for our 'free will.'
- 'In order for us to be able to 'interfere' and help you must first request our assistance. It is only then when we can respond to your 'distress call.'
- "We also do not wish to circumvent your opportunities to assist a neighbor or family member.
- So will be the case with your sisters and brothers from the stars.
- You will not be thrown back into the primitive state of your ancestors.
- At the same time, your major cities will become unsustainable.
- It is from the countryside and in smaller villages that the civilization of Earth will be reconstructed.
- Plan well for the transformation is upon you.
- Some have visualized the pending changes as the separation of the Earth into two parts.

- Others have seen a second Earth make an appearance and humans being transported to that sphere.
- What is more accurate is a separation of the Earth into different densities based on vibration.
- Those who are of the 3rd vibration will experience the physical changes that Earth is projected to undergo, including earthquakes, volcanoes, and tsunamis.
- These events will change the face of the planet.
- **Water will intrude over land.**
- **The poles will shift.**
- **The crust of the Earth will rotate.**
- The net result of this will be a more moderate climate and the greening of the deserts.
- It will take some time for the Earth to adjust to all that is new.
- The animals and fish will adjust quite rapidly.
- It is the humans who remain on the Earth of a higher vibration who will have the most difficult adjustments.
- You will need new shelter, food, and water.
- **Those of you who are vibrating at a higher frequency will not experience the trauma as severely as those who are vibrating at a lower frequency.**
- You will rise above much of the trauma, but you will see it nonetheless.
- Thus you will exist alongside those of the lower vibrations.
- You will walk among them but they will barely see you.
- In some cases you will be able to reach out to assist them.
- Entire communities will be distinguished by their combined frequencies: Individuals of the higher frequencies blending with those of the somewhat lower frequencies.
- Those of you who have achieved a higher frequency will be able to see us, your sisters and brothers of the stars, as we come to assist your transition.
- Those of the lower frequencies will not see our assistance but they will benefit from it nonetheless.
- From your vantage point, you will assist the continued evolution of mankind on Earth.

- The greater advantage you have is that you will possess human bodies exactly like those of the humans of the lower frequencies.
- They will relate to you more readily than they have to us who have seemed strange.
- You are to be the Caretakers, not only of the Earth, but also of your human brothers and sisters.
- This has not been done before: Humans who are of a slightly higher frequency assisting those of a slightly lower vibration.
- All who remain on Earth will slip into what you are calling higher dimensions.
- None who are addicted to fear, hate, anger, war, or violence will survive what is coming.
- Their dense energies will not enable them to move upward.
- Those who consciously put aside lower vibrations will shift into a higher dimension and journey to the new Earth.
- Those of you who are vibrating at a higher frequency yet will interact with them as guides, mentors, and elders.
- It will be a glorious time when the new humans of Earth can vibrate at the frequencies of the animals and plants, can see the oneness of all, can relax into the beauty of Earth, and most importantly can assist each other in love and light.
- The time of great change is upon you.
- Embrace the higher energies.
- Each must find his or her own way of being.
- Your evolution and your uniqueness are valued.”
- Furthermore, our Andromedan brothers and sisters add:
- “We can see the Earth in the future.
- We live in the higher dimensions where there is no time and we can see without distortions.
- We see at faster vibrations
- We who exist in the density without time can assure you that Earth will continue.

- We see her somewhat differently than do you who are looking through a 3rd dimension vibration.
- Earth is much the same as today (mountains, oceans, etc.);
- It is that we see her differently from our lighter perspectives.
- We are looking at a beautiful new Earth through the perspective of our higher frequency.
- We can assure you that humans of Earth will continue, albeit at a higher vibration.
- We can assure you that everything will be quite different on the new Earth — that the new Earth will be a planet of love, light, and Oneness.
- We have seen the brilliant new Earth as she shines like a beacon for all in the universe.
- You the humans who then reside upon her will be honored as those who transformed themselves from a density of fear into beings of love and light.
- And there will be great joy among all in the universe as these momentous events are realized.
- What you do for yourselves and each other reverberate through the universe.”
